CARBON FOOTPRINT REDUCTION (CFR) POLICY

There is strong consensus within the scientific community that climate change is occurring and is caused by human activity. **HOMELAND IOS LTD** is therefore taking steps to reduce its own carbon emissions. This makes good sense environmentally and economically.

It is nonetheless our aim to ensure our environmental commitments become an integral part of our day to day activities, that we seek ways to continually improve our environmental performance and operate in a responsible manner including reducing waste and making reductions in our carbon emissions from heat, power and travel (air, land, water).

HOMELAND IOS LTD will ensure it operates within all applicable environmental, legal and other requirements as imposed by relevant regulators and best practices. We have attained ISO 14001 certification in environmental management systems and will maintain this accolade as a minimum standard for all present and future environmental and carbon reduction initiatives.

The aim of this policy is for **HOMELAND IOS LTD** to control its impact on the environment through the following objectives:

- Promote environmental awareness to all stakeholders including the induction of new staff and volunteers.
- Minimise our contribution to pollution by reducing our carbon emissions and waste together with recycling, reusing and reducing wherever possible.
- Introduce into our procurement practice supplier/subcontractors selection criteria based on a minimum environmental standard.

All of our staff are responsible for complying with this policy and supporting our efforts to minimise our impact on the environment. Management and all those in a supervisory roles have the responsibility for implementing the policy within their areas of responsibilities, and should ensure that environmental issues are given adequate consideration in the planning and execution of our operations, services and programs.
